

Course Code MUS-224	Course Title Ear Training IV	ECTS Credits 2
Department Music & Dance	Semester Fall	Prerequisites MUS-223
Type of Course Required	Field Music	Language of Instruction English
Level of Course 1 st Cycle	Year of Study 2nd	Lecturer(s) Dr Aharon Dimont
Mode of Delivery Face-to-face	Work placement N/A	Co-requisites None

Objectives of the Course

The main objectives of the course are to:

1. Improve basic aural skills of melodic and rhythmic dictation, aural recognition, and sight-singing, primarily involving difficult diatonic, single-key exercises.
2. Develop the aural recognition of diatonic and chromatic modulations in melody and harmony.
3. develop the aural recognition of intervals and chords
4. improve the student's aural perception by signing exercises of one and two parts
5. train students in one- and two-part melodic dictation
6. train students in chromatic harmonic dictation

Learning Outcomes

After completion of the course students are expected to be able to:

1. Identify the lower part of a two-part passage
2. Identify the top part of a two-part passage
3. Identify Chords (IIb, Ic, V7 in Root Position and its Inversions)
4. Recite melodies in two, three, or four parts
5. Define chords and harmonic functions by listening in four-part harmonic progressions
1. Write two- and three-part melodic dictation

Course Contents

- Introduction to the rhythmic patterns
- Introduction to the Intervals

- Introduction to the Scales (major, minor and arpeggio)
- Introduction to the triads (major, minor, augmented and diminished)
- Introduction to the Chords Iib, Ic, (V7 in Root Position and its Inversions)
- Contemporary Chordal Structures
- Make use of computer-based aural skills training aids

Learning Activities and Teaching Methods

Theoretical and Practical Exercises and Assignments.

Assessment Methods

Attendance and participation, Mid-Term, Final Exam.
